UVa MHIRT Research Training Program: Training Future Leaders to Address Global Rural Health Disparities Application
Proposal Deadline: 16 January 2015
Award Announcement: 13 February 2015

Opportunity Overview
The UVa MHIRT Program will provide outstanding students (6 undergraduate and 2 graduate) with the opportunity to participate in an intensive, international, mentored research experience that extends the analysis of global rural health disparities using an interdisciplinary approach to appreciate more completely the complexity of global rural health and disease. Selected candidates will work with mentors at International partner sites in Uganda, South Africa and St. Kitts and Nevis.

Application
This application requires all of the following:

☐ Your contact information
☐ Contact information for two academic mentors/references
☐ Your resume or CV
☐ A letter of support from EACH of your mentors
☐ A Statement of Purpose (500 words max)
